

## CompTIA Authorized Academy Program

### MEMBERSHIP BENEFITS INCLUDE:

- Discounted pricing on student exam vouchers
- Complimentary instructor voucher(s) for CompTIA certifications
- Access to the Instructors' Online Forum for sharing best practices
- Free attendance to annual EMEA Members Conference
- Access to industry research and best practices
- Marketing materials:
  - Posters for classrooms
  - CompTIA certification flyers
  - Use of CompTIA's logo

IT careers start with the right education. The CompTIA Authorized Academy Program can help your institution deliver the curriculum that prepares students for success. It is a partner program for institutions that offer IT education and training. The goal of CompTIA's Authorized Academy Program is to help academies train, certify and provide them with the skills to have a successful career in IT.

### Institutions eligible for membership:

- Schools
- Further Education Colleges and Universities
- Nonprofit Training Companies
- Government Funded Organisations and Agencies

### CompTIA Authorized Academy Program supports IT education.

Members of the program have instant access to a community of IT instructors; to network, collaborate and share ideas for the classroom.

### About CompTIA

CompTIA is the leading association representing the IT industry. Its goal is to provide a unified voice, global advocacy and leadership, and to advance industry growth through standards, professional competence, education and business solutions. CompTIA also serves the IT industry as the world's largest developer of vendor-neutral IT certification exams. CompTIA certifications validate technical skills in the areas of PC repair and support, networking, security and server technology.

## CompTIA Certifications: A Skills Benchmark for IT Professionals

CompTIA certifications are recommended or required as a prerequisite for many vendor-specific certifications, such as Microsoft MCSE and Cisco CCNA.

**CompTIA A+®** - for entry-level computer support technicians. Validates the foundation-level skills needed to install, diagnose, repair, configure and troubleshoot computer hardware and operating systems.

**CompTIA Network+®** - for experienced network technicians. Validates knowledge in the areas of network installation, configuration, and troubleshooting of hardware, protocols and service.

**CompTIA Security+®** - for experienced, technical security professionals. Measures the technical knowledge of systems security, network infrastructure, access control, assessments and audits, cryptography and organisational security.

**CompTIA Project+™** - for any IT professional looking to gain project management skills. Validates knowledge of project management methods and practices, in areas such as planning, execution, coordination and project maintenance.

**CompTIA Strata™** - offers fundamental to advanced certificates that validate a wide range of subjects in information technology (IT). Students and professionals holding a Strata certificate demonstrate that they have the knowledge required to enter and excel in IT and technology-related fields. Strata exams validate knowledge in several IT subjects, including Green IT, Technical Sales and PC concepts.

**CompTIA PDI+™** (Printing and Document Imaging) validates the ability to provide basic support for printers, copiers, scanners and multi-function devices regardless of the manufacturer. The exam covers topics such as basic electromechanical tools and color theory as well as print and scan processes and components.

**CompTIA CTP+™** (Convergence Technologies Professional) validates the core knowledge and skills IT professionals need to sell and service convergent technologies. The certification covers the analysis, implementation and management of data components, and voice and multimedia applications.

**CompTIA CTT+™** (Certified Technical Trainer) provides a globally recognised measure of core skills, actions and behaviors required of competent technical instructors. Certified Technical Trainers personify excellence in preparation, presentation, communication, facilitation and evaluation in a classroom environment.

**CompTIA Linux+™ Powered by LPI** validates the fundamental knowledge and skills required of junior Linux administrators. The exams cover system architecture, GNU and Unix, user interfaces and desktops, and Linux installation and package management.

**CompTIA Server+™** demonstrates the technical knowledge and skills required to perform general maintenance installation, upgrades, configuration, troubleshooting and disaster recovery on server platforms.
