

It's important to stay on the cutting edge of the latest defensive and offensive cybersecurity skills. That's why CompTIA staff is hosting two, comprehensive 3-hour mini-boot camps running concurrently to AFCEA's Defensive Cyber Operations Symposium. You'll learn about CompTIA's newest security certifications, CySA+, previously CSA+, and the upcoming CompTIA Pentest+.

CySA+ Mini-Boot Camp

Learn the latest blue team defensive skills needed to configure and use threat-detection tools, perform data analysis, interpret the results and secure the enterprise. Earn CEUs and fill the analytical gap that you and your employees may be missing.

PenTest+ Mini-Boot Camp

Interested in red team offensive skills? Attend this session for a sneak preview of the soon-to-be-released certification, Pentest+. Earn CEUs while learning about the latest red team offensive skills needed to identify, exploit, report, and manage vulnerabilities on a network to determine its resiliency against attacks.

Meet Our Team

Dr. James Stanger

Chief Technology Evangelist, CompTIA

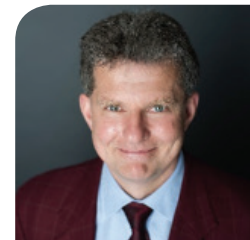

Dr. Stanger has consulted with corporations, governments and learning institutions worldwide about risk management, penetration testing, security analytics, open source, and network administration for over 20 years. Organizations include IBM, Dell, NEC Global, Symantec, the Scottish Qualifications Authority (SQA), Canon, New Horizons, the U.S. Department of Defense (DoD), the United Arab Emirates Cultural Division, the Open University (UK), and the U.S. Department of State.

Patrick Lane, M.Ed.

Director of Products, CompTIA

Patrick manages IT workforce skills certifications, including CompTIA CySA+, CompTIA Pentest+ and CompTIA Advanced Security Professional (CASP). He assisted the U.S. National Cybersecurity Alliance (NCSA) and the Director of Cybersecurity Policy at the National Security Agency (NSA) to create the "Lock Down Your Login" campaign to promote multi-factor authentication nationwide. Patrick is an AFCEA lifetime member.

Stephen Schneider

CompTIA Instructor Network (CIN) Program Manager

Stephen manages CompTIA Security+ and is responsible for assisting instructors in getting the most out of CompTIA certifications. He also supports sales personnel and customers to align certifications to programs, and conducts workshops and webinars highlighting certifications and implementation. Stephen's specialties include educational technology, professional development training, public speaking, open source solutions, networking and security.

Tuition: Active Military/Government: FREE

AFCEA Member – Industry/Contractor/Academia/Other: FREE

Seating is limited, register early. Contact GovernmentSales@CompTIA.org

Bonus! Attendees have a chance to one of two CySA+ or one of two Pentest+ vouchers (available upon exam release).
