

Nick Rossmann

Lead for Intel Research and Operations
X-Force IRIS
IBM Security

Nick Rossmann, Intelligence Research and Operations Lead,
IBM X-Force IRIS

Nick Rossmann is the Lead for Intelligence Research and Operations within IBM X-Force Incident Response and Intelligence Services (IRIS). His teams hunt for evil and reverse engineer malware. Nick works closely with offering management across IBM Security to integrate threat intelligence into the portfolio.

Prior to IBM, Nick was a senior manager for intelligence production at FireEye where he coordinated research, including assessments about China, Russia, cybercriminals and ICS vulnerabilities. In addition, he oversaw the production and dissemination of threat intelligence to clients and supported the sales organization. Prior to moving to the private sector, Nick was an intelligence analyst on Middle East issues at the CIA, and also worked at the FBI and Department of Defense. He's a graduate of the Maxwell School at Syracuse University with a Masters in Public Administration

and M.A. in International Relations. Nick attended the National Intelligence University. He's currently earning his Executive M.S. Information Management from the iSchool at Syracuse University.
